TECHNICAL SKILLS

Flutter · Dart · SwiftUI · React · TypeScript · Node.js · SQL · Git · GitHub · UI/UX Design · Frontend · Backend

CORE STRENGTHS

- User-focused interface design
- Responsive web development
- Cross-platform development
- Problem-solving mindset
- Continuous learning

PORTFOLIO

Add portfolio website URL

ENG Douglas Oroko

SOFTWARE DEVELOPER

Passionate about building modern, user-friendly digital experiences across web and cross-platform technologies.

PROFESSIONAL PROFILE

I am a passionate software developer with interests in UI/UX design, frontend development, backend development, and cross-platform application development. I enjoy turning ideas into practical digital products, with a focus on usability, clear interfaces, maintainable code, and continuous improvement.

TECHNICAL FOCUS

Frontend & User Experience

Building responsive interfaces and user-friendly experiences with React and modern web technologies, supported by UI/UX design principles.

Cross-Platform Development

Developing application experiences with Flutter and Dart, alongside an interest in SwiftUI for Apple-platform interfaces.

Backend & Data

Working with Node.js and SQL as part of full-stack application development and data-driven solutions.

SELECTED PROJECTS

Project One — Add project name

Add a concise description of the problem, what you built, and the value it provides.

Technologies: Add stack · **GitHub:** Add repository URL

Project Two — Add project name

Describe an application, website, or interface that demonstrates your skills and contribution.

Technologies: Add stack · **Live demo:** Add URL if available

EDUCATION

Newton Institute of Technology

Add course or qualification and dates, if applicable.

Kwoyo Ougis Secondary School

Add attendance dates or qualification details if desired.

Nyamome Primary School

Add attendance dates if desired.

PROFESSIONAL INTERESTS

Building useful software, exploring modern development tools, improving digital experiences, and learning new technologies.

Draft CV: replace placeholders with accurate details and verify all information before sending to employers.
